Project Preparation:

- Stamp and cut out flowers and leaves for layering. Leave a thin border of white around each image.
  - Stamp the flower base in 2nd Generation Smoothie (qty. 2)
  - Stamp the flower overlay in 2nd Generation Smoothie (qty. 3)
  - Stamp the flower overlay in Pomegranate (qty. 2)
  - Stamp the leaves in Fern as shown (qty. 5 in pairs and 1 single)
- Cut the Zip Strips off of each piece of paper before cutting project pieces. The Zip Strip is the 1/2” of coordinating accent paper along the top edge of each Background & Texture Paper.
- The project pieces in the cutting guide are labeled so that the pieces for each card can be grouped for easier assembly. (Example: “C1” = Card #1 and “C2” = Card #2) As you cut the papers, you can stack the pieces for each card type in a pile or lightly label with a pencil on the back.
- NOTE: When following the cutting guide for papers with a directional pattern, check the circle color swatch to the side of the diagram to see which way the paper should go.

* NOTE: This White Daisy Cardstock square shows the background stamping for main focus piece on Card 3.
